BREAKDOWN OF FULL-TIME EMPLOYMENT

ACADEMIC AND CAREER DEVELOPMENT CENTER

Students at Fairfield University have an opportunity to earn academic credit and gain practical on-site work experience by pursuing internships in their major fields of study. Internships are coordinated by University faculty and on-site supervisors. Through these experiences students can enhance their learning and explore potential careers. Upon graduation, students are frequently offered positions within the sponsoring organization where they interned.

To register for credit internships, a student must obtain prior approval from the faculty member who coordinates the internship program in the department of his/her major.

During the 2015-2016 academic year, a total of 592 members of the Class of 2016 reported participating in internships during their time at Fairfield.

During the fall and spring semesters major organizations recruit juniors and occasionally sophomores for their summer internship program through the Academic and Career Development Center. These organizations will often conduct on-campus interviews. Students who are hired gain a broad understanding of the organization and industry, and often receive full-time employment offers at the completion of the internship.

Students are encouraged to search the Center's Stags4Hire site.
